

Cloud Engineer

Program Length

52 weeks

Program Objectives

NetSoft's Cloud Engineer Program trains students in AWS, Microsoft Azure, Google Cloud, Python, Docker, Kubernetes, Terraform and DevOps products. It enables students to gain the proficiency needed to harness the power of these products and other cloud and DevOps tools.

Duration and Schedule

The program consists of 20 hours per week for 52 weeks.

Grading System

Students who successfully complete the program and pass the final exam will receive a diploma approved by the Ministry of Training, Colleges and Universities. The diploma will be awarded based on the following criteria:

- 1 The student must pass the course with a minimum grade of 60 per cent and meet all standards related to contact hours.
- 2 The student must maintain a satisfactory attendance rate of at least 80 per cent.
- 3 The student must not have any outstanding fees.
